

Hello, I am Ms. Samantha and I began working at DBELC in July of 2011. I have spent time working with children of all ages here, but I have spent most of my time working with the DBELC's infants and toddlers. I also serve as a section leader here at DBELC. It was during my time working as a Therapeutic Staff Support (TSS) that I discovered my passion for working with children and helping children in need. I graduated from West York Senior High School and attended Millersville University and HACC to study psychology and social sciences. I am currently working to attain my A.A. in Human Development and Family Studies at Pennsylvania State University. I am proudly bilingual (I also speak Spanish) and in my spare time, I enjoy gardening and spending time with my family, my children, and my friends. My favorite part about working with children is seeing their smiles when they learn something new. I enjoy their innocence and infectious joy and am proud to provide them with a loving and engaging environment in which to grow!
