

Ms. Erin

Infants

Ms. Erin takes care of the infants here at DBELC. She joined us in June of 2013. She is very excited to have this opportunity to nurture, teach, and get to know all of the children here. She graduated from Alvernia College in 2005 with a Bachelor Degree in Education. There, she worked for 2 years as a site director for a school-age program. She also taught pre-kindergarten for a number of years at another center before deciding to stay home with her three young children for a few years. Ms. Erin enjoys spending her time with her own children, being outdoors, and going to the park. She also enjoys watching sports, especially Ohio State University football. Erin chose to work with children because she loves being a part of a child's growth and development. In her classroom, Erin aims to create a sense of trust and security for the children so they feel safe to interact with each other and to learn about the world around them.
