

Ms. Samantha

Infants

Ms. Samantha works with the infants and serves as the infant and toddler section leader. She began working here in July 2011 and spent two years teaching the toddlers. It was during the time that she worked as a Therapeutic Staff Support (TSS) that she discovered her passion for working with children and helping children in

need. She graduated from West York Senior High School and attended Millersville University and HACC to study psychology and social sciences. She is currently attending classes in early childhood education at PSU. She enjoys gardening and playing video games (with her children). Her favorite part about working with children is seeing their smiles when they learn something new. She enjoys their innocence and infectious joy.
